erasoft RCS
Remote Control PC Software

The easy-to-use era**soft** RCS software is the perfect tool to connect a PC running Microsoft Windows® with one or more **era**lytics analyzers. As an alternative to LIMS, it allows for convenient data transfer and remote control of the analyzers. The era**soft** RCS can be installed on multiple computers in your company.

era**soft** RCS[1] is available as a Standard and as a Premium Version. The **Standard Version** is available free of charge on the instrument. The fee based **Premium Version** is a software-upgrade and offers advanced features like the fully automatic download of results.

FEATURES	Standard	Premium
Comfortable result transfer to a PC	☑	☑
Optional interface to a company LIMS[2]	☑	☑
Convenient handling of output configuration files (printer, LIMS)	☑	☑
Log-files detailing all warnings and errors on the instrument	☑	☑
Live status display of the instrument	☑	☑
Straight forward printing of results directly in the RCS	☑	☑
Comfortable remote software-update of the instrument		☑
Remote control for the measurement and corresponding parameters		☑
Automatic result download		☑
SpecView®: Graphically view and printing of spectra (for Eraspec and Eraspec Oil)		☑

[1] era**soft** RCS is compatible with all eralytics instrument generations, but not all listed features may be available for older instrument generations.

[2] The RCS can be used as an interface if the direct connectivity of an instrument to a LIMS is not possible.

eralytics instruments are available worldwide.
An international network of over 50 authorized and well-trained distributors is ready to answer your inquiries and to offer local support and service.
